DETAILED ACTION

Drawings

1. Figure 1-4 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawing sheets are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 19-21 are rejected under 35 U.S.C. 102(b) as being anticipated by Blancato (4731743).

Blancato discloses a computer system for creating or retrieving a slide image (first slide image). The computer system comprises a MacPaint program for performing various modifications on the slide image. The modifications include steps of creating a

second slide image from the first slide image by erasing portions of the first slide image with an eraser (93), or by modifying parameters set in the first slide image.

Allowable Subject Matter

4. Claims 1-18 are allowed.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Tafoya et al disclose a projection system.

6. An IDS was filed 1/22/02. However, the cited Japanese references (6-301498 and 7-007664) have not been submitted. Applicant is respectfully requested to submit these Japanese references.
